MEGARON ATHENS INTERNATIONAL CONFERENCE CENTER

Welcome Address

Dear colleagues,

Athens Medical Group (AMG) was founded in 1984 by Dr. G Apostolopoulos, with a vision to become a globally leading healthcare institution and transform Greece into a world class medical destination, equal to the ones in Western Europe and the USA. Today, AMG is one of the best European Medical Groups, whose hospitals operate under the strictest international quality criteria. Its specialized and experienced healthcare professionals have been trained in elite University hospitals, worldwide, while state-of-the-art technology supports the provision of multidisciplinary, patient centered services. Innovative methods and techniques are constantly adopted, while some of them are firstly presented on a worldwide level. Finally, AMG is offering world class facilities to doctors of the Greek diaspora, thus becoming a key contributor to the **reversal of the “Brain Drain” effect**.

Serving its founder's vision, Athens Medical Group is organizing the **2nd Athens Medical Leadership and Innovation Conference (AMLI 2018), 23-25 November 2018, at the Megaron Athens International Conference Center**. The **AMLI 2018** conference is expected to serve as a platform where top scientists from Athens Medical Group and their global counterparts will discuss latest trends in their respective fields of expertise. At the same time the conference will address key global trends driving patient mobility, into what is considered today a fully globalized market for Healthcare services. Finally, the important role of patient advocacy will be emphasized.

For more information about AMLI 2018, please visit: <http://amli2018.com/>.

On behalf of the Organizing Committee, we would like to invite you to participate to this important scientific event.
